

Congrats

Posted by Sue - 2009/07/25 12:16

Congrats to Zuleykz and everyone else and I hope the work you've all contributed proves useful and stimulating.

I won't be contributing much (apologies) as I am full time studying and older (59 years young) and also love to stop and smell the roses.

My main work is as a Counsellor/Community Development/Activist working for not for profit community organisations tho I am looking at commencing my own service in a year or so.

I also LOVE butterflies and nature and think we are connected to the environment which can regenerate us on many levels.

YOurs in harmony and sociology...Sue

Thank you Sue! Good luck with your studies, and be sure to let us know how you go over the next year setting up your own service!
